Kawajangsa, Thimphu
Bhutan

1st February, 2024

Dear Researchers, Academics, and Professionals,

The **Journal of the Bhutan Ecological Society** is pleased to announce an open call for papers across a broad spectrum of environmental, developmental, and sustainability issues. We welcome submissions that delve into the intricate connections between human activities, the environment, and the challenges posed by climate change, with a particular emphasis on food-related aspects.

Scope of Topics (but not limited to):

Environmental conservation and management
Sustainable development strategies
Climate change adaptation and mitigation
Biodiversity and ecosystem services
Agricultural practices and food security
Sustainable food systems and supply chains
Socio-economic dimensions of sustainability

Submission Guidelines:

Authors are encouraged to submit original research papers, review articles, case studies, and perspectives. Manuscripts should adhere to the journal's preferred format of Microsoft Word, 'standard' font - 12-point Times New Roman.

Submission Deadline: **31 March, 2024**

Review Process:

All submitted papers will undergo a rigorous peer-review process to ensure the publication of high-quality and impactful research. Accepted papers will be published in our upcoming issue.

How to Submit:

Please submit your manuscripts to namgyel@bes.org.bt

Inquiries:

For inquiries or additional information, please contact the editorial team at namgyel@bes.org.bt

We look forward to receiving your contributions and fostering insightful discussions on the crucial topics of environment, development, climate change, foods, and sustainable studies.

Best Regards,
